my term ... ...   you can ??? and send to grande prairie
or whatever ... Read!

Dear Warden Andrews,

I'm writting you, to please urge you to consider me for early release into home confinement, In wake of the Covid-19 Pandemic. I'm currently serving time for 2 non violent charges. (Drug Conspiracy + Money laundering Conspiracy) I have less then 2yrs remaining on my sentance. This is my first time being incarcerated. I have an extremely low recidivism level. Plus I currently have only 13 pts and as soon as my unit team gets my high school diploma, I will have 11 pts. We all have love ones who desparately need us, My family included. They are struggling and desparately need me out of prison. My mother + father are getting old and have no one to help them. My sister just had a baby and i'm very excited to be a loving uncle to this child. I'm 36 years old and I desparately want to start a family of my own and have children. I have the utmost confidence that I will not reoffend and ill tell you why. I'm ambitious, driven and educated. I'm the co owner of a drug treatment ~~center~~ facility. and have intentions to start another business enterprise upon my release. I still have a home to goto and people who love me. Coming to prison has made me realize how very fortunate I am. The problem that led me to commit these crimes, was my struggles with drug addiction. I still struggle to this very day. However, I have already discussed with my family plans to seek treatment upon my own fruition. I have proven in the past with proper treatment that I can and will remain clean upon my release. The treatment I need in not attainable in prison and it is proven that you can not incarcerate addiction out of a Drug addiction. It is with this plan that I know I can and will suceeed. My family is on board, Im on board and I know it is time to make a change. I also have other documented medical problems, that cannot be treated in prison. Please Sir, I ask that you take into consideration my early release into home confinement, Contingent that I seek immediate treatment upon release.   Thanks Sincerly Ryan Farace 63661037
